OBJECTIVE

Motivated self-taught web developer with a strong passion for building user interfaces, specializing in front-end development. Eager to apply my skills and knowledge in a professional environment where I can grow and contribute to meaningful projects.

Skills

Soft skills:

- Effective communicator.
- Forward-thinking and innovative with a proactive approach.
- Highly organized and proficient at independent work.
- Effective in time management to enhance productivity.
- Adaptable to changes and unforeseen obstacles.
- Coachable and eager to coach others.
- Team player with a collaborative and open-minded mindset.
- Passionate and driven for excellence.
- Inherently curious, humble, and courageous.
- Motivated to tackle new challenges.
- Outgoing and personable with a friendly demeanor.
- Empathetic toward customers, co-workers, and vendors.
- Highly self-aware with strong general awareness.
- Receptive to clear and constructive criticism.
- Skilled in stress management.

TECHNICAL SKILLS:

- HTML
- CSS
- JavaScript

- TypeScript
- Vue.js
- Nuxt.js
- Tailwind CSS
- Bootstrap
- SASS
- Responsive web design
- MySQL
- Sqlite
- Mongodb
- Git & Github

Familiar with PHP, Laravel framework, Object-Oriented Programming (OOP), Design Patterns, SOLID Principles. Algorithms and Data structures, Database design.

PROJECTS

- **Hisouby:** hisouby.web.app
 - A single-page application (SPA) built with Nuxt.js, using Firebase Firestore as the database and Firebase Hosting for deployment. It's designed to train students in mathematics from elementary to high school levels.
- **YourMenuPage:**
 - A single-page application (SPA) built with Laravel and Inertia.js, based on Vue.js and using Sanctum for authentication, with SQLite as the database. It is designed as an online menu platform for restaurants and coffee shops, helping users find digital menus from their favorite spots nationwide. Users can search for restaurants and view their menus, prices, hours, locations, and more. Restaurant owners can create accounts to save items and access a dashboard with features to add, edit, and delete food items. Github repository: github.com/heydar-abbas/yourmenupage-inertia.js

THINGS I LOVE

- Enjoys coffee and reading novels
- Continuous learner, always seeking growth
- Passionate about traveling, exploring new cultures, and outdoor activities
